## Ecoprêt Spuerkeess

### Loan terms

- › 12-120 months
- › Min. amount of EUR 5.000 and max. amount of EUR 100.000
- › Attractive rates under certain conditions, which can be found on the dedicated site
- › No mortgage
- › No handling fee with a Zebra Premium package
- › Full amount of the loan paid into the customer's current account on presentation of supporting documentation (quotation, invoice, etc.)
- › Monthly repayments, which must be made by standing order from a Spuerkeess current account

### Eligibility conditions

- › Energetic refurbishment on buildings located in the **Greater Region** is only eligible if the real estate was **financed by Spuerkeess**.
- › Wages and most income transferred to an existing Spuerkeess account.
- › Note that **100% of the amount borrowed must be invested in this type of project** (costs related directly to energy improvement and ancillary expenses related to the project may also be included in the Ecoprêt).

### Fund uses

- › Installation of **renewable energy** technologies:
  - photovoltaic system
  - heat pump
  - solar thermal collectors
  - wood pellet central heating
  - etc.
- › **Energetic refurbishment** that helps improve the building's energy performance:
  - façade with thermal insulation
  - roof with thermal insulation
  - replacement of doors and windows
  - slab insulation
  - central heating
  - etc.
