

## Lease Plus: you got it all!

With Lease Plus, the only thing you need to handle is fill up the tank... or charge the battery!

In partnership with **Leasys Luxembourg S.A.**, Spuerkeess is offering all-inclusive operational leasing **for individuals who are Luxembourg residents.**

Operational leasing - an alternative to purchasing a vehicle with traditional financing - is a long-term vehicle rental. A **fixed monthly payment** based on the vehicle model, length of the lease and chosen mileage covers all your vehicle's needs:

### + Administrative management

Lease Plus makes your life easier by including all administrative requirements, starting with registration.

### + All-inclusive insurance

The monthly Lease Plus payment covers insurance costs for your vehicle and claims management.

### + Maintenance and tyres

Lease Plus includes seasonal tyres, regular maintenance and mechanical repairs.

### + 24/7 roadside assistance

Since no one is immune to a bad surprise, Lease Plus provides 24/7 roadside assistance throughout Europe.

### + Perks for you:

- > no deposit;
- > total transparency: all of the costs of using your vehicle are predictable (except for fuel or electricity, parking and tolls);
- > guaranteed flexibility: at any time during the lease, you can change the term and/or mileage based on a price chart determined when you sign the lease;
- > insurance included for reconditioning costs when the car is handed over at the end of the contract (cover EUR 585);
- > you won't have to worry about reselling the vehicle at the end of your lease.
